Merchants, who sell cigarettes, seem to be generally satisfied with the State law which now prohibits the sale of cigarettes to persons under 18 years of age. Nobody but the boys will object.

CHICAGO GETS THE WORLD'S FAIR.

Congress decided on Monday that the World's Fair shall be held at Chicago. That is right, and especially with reference to Richmond and vicinity. Through will soon be running between Richmond and Chicago—over the R. N. & B., Louisville Southern and Monon—and how easy it will be for us to visit the World's Fair.

KILLED IN A CEMETERY.

Doctors Grant and Blackburn, two prominent physicians of Louisville, in company with an unknown man and a negro, visited the New Albany cemetery shortly after 12 o'clock Monday night. Their intentions were to secure the remains of two persons who were buried on Sunday. The New Albany officers received information and lay in waiting. The negro was killed and the Doctors arrested and lodged in jail, while the unknown man escaped. The penalty is the penitentiary.

"COALS TO NEWCASTLE"

New York is shipping horses to Kentucky. Louisville is shipping gas-pipe to Allegheny City, Pennsylvania. Birmingham is shipping iron to Pittsburgh. Pittsburgh is shipping glass to Europe. How can Pittsburgh afford to ship glass to Europe? Because the price is greater there than here. Free trade England has not broke down all the factories in the world. How can Kentucky and Alabama afford to ship iron to Pennsylvania? The cost of production is so much less than in the North. The South can compete with England, or any other country. The tariff must go.

FALLACIES OF PROTECTION.

The Hon. Hugh McCulloch has reviewed the recent letters from Gladstone and Blaine on Free Trade and Protection. The recent contributions on the tariff question, from Messrs. Gladstone and Blaine, appearing in the North American Review, have attracted wide attention, and the salient points of both articles are given on our fourth page. To these articles Hon. Hugh McCulloch, ex-Secretary of the Treasury, replied in the New York Times. The prominence and high standing of Mr. McCulloch in political and financial matters will give to his utterance on these questions more than usual importance.

GAS VS. ELECTRIC LIGHTS.

The Richmond Gas Company is considering a proposition to put in electric lights. If Richmond is to have electric lights for its streets, let them, by all means, be the arc light. The incandescent electric light on the street is little better than a tallow candle. Good gas is equalled by nothing save the arc light.

The incandescent light is delightful and convenient for indoor purposes, so long as it lasts. But it is not turned on until a certain hour in the evening and is shut off promptly at midnight, so that before the hour of lighting, and after 12 o'clock, one must be bothered with a coal oil lamp that is not used enough to be kept in good running order.

As between electric lights and gas, where both cannot be had, give us the gas.

INSPECTOR OF MEAT.

Representative W. B. Smith has offered a bill to provide for live stock inspection, and for the punishment of all persons who may sell dressed beef without inspection within the corporate limits of any city of 3,000 inhabitants or more. The Mayor of such town is required to appoint a Live Stock Inspector and not more than six deputies. No meat of any calf under six weeks old, or of any other animal except game, shall be slaughtered for food unless inspected by this officer, who shall give a certificate of inspection. Several penalties are enacted for violation of this law.

Let the people take this measure into consideration. Who is to pay the inspector? Will it increase the price of meat, or decrease it, or make it better or worse? Let us have something more explicit on the subject.

Dan Welch, who resided on a farm near Stony Point, came to town Friday and became somewhat intoxicated and started home, but was maddened by some unknown party for his money. His head showed marks of violence, and his pockets were turned out and rifled of their contents. He exhibited quite a wail of money before leaving town, and it is supposed that some one followed him.—Bourbon News.

[FOR THE CLIMAX.]

"HA TI MI TUIMLE."

A youth sailed forth one summer day As morning's glories brightly burned; His lover waited him sail away— Alas, he never has returned!

She waited while the tired years flew, For him her faithful bosom yearned; He sailed beyond the briny blue, And never, never has returned.

A youth went out from love and home To make a name and fortune earn; About the sad world long did roam, But went, alas, a-crier to return.

He dreamed not of his faded lot, Whose high hopes in his young heart burned; He left that day home's hallowed spot, And never, never has returned.

We part from those we hold most dear, Our life's great lessons yet to learn; We chase the things that charm us here, To homes and hearts near to return.

For tinsel fame that soon departs, We left the breast that for us yearned, For home and hearts near to return, With little thought of forlorn hearts— Alas, and never has returned!

—Wilhelm.
Dear Rock, Ky., Feb. 1890.

"Scott," "We return no more."

THE REVOLUTIONARY CODE.

By a vote, lacking four of a constitutional majority, as defined by the existing rules and universal practice, the House yesterday adopted the Reel-McKinley Revolutionary Code as the law for its proceedings during the Fifty-first Congress. The result was not attained without formal protest from even the Republican side of the House, and there are many of his fellow partisans who share the sentiment expressed by Mr. Struble, of Indiana, that the Republicans would have done wisely to accept several of the Democratic amendments instead of voting down the Democratic measure. The amendments conducted the fight in opposition to the innovations with signal ability and dignity. The speeches of Carlisle, Crisp, Breckinridge, McCrory, Buckalew and Cantrill will stand on record as brilliant specimens of parliamentary logic and eloquence, and the opinion of the country is firmly fixed that a great outrage has been perpetrated on the majority of the people, who only through the corruption of the suffrage and the distortion of constituents have been deprived of a majority representation in their Congress. The position of the country will be indicated at the polls. The Democratic majority in the Fifty-second Congress will not seek to impose upon its opponents the injustice the Republicans now inflict.—New York Star, 15th.

Says the Anderson News: "There are thirteen distilleries, large and small, now in operation in Anderson county. These institutions are using 4,500 bushels of corn daily, which make 17,000 gallons or 375 barrels of whisky per day. About \$125,000 represent the capital employed in connection with these distilleries, and the expenses attached to the running of these houses are simply enormous. The revenue derived from the product of these manufacturing establishments paid to the United States Government for the period of one year in taxes runs up to millions.

The association or company that built the Clay Monument in our cemetery, has dissolved and left the monument as a costly legacy to the cemetery company or to let it decay if it is not properly attended to. Some years ago a thousand dollars was spent on a lead roof for the base. This has corroded and leaks badly. The State never gave a cent to this great monument to the great man who reflected more honor on the State than any other public man who ever represented it. Dr. Skillman, President of the Cemetery Company, and E. D. Sayre, Treasurer, have been in Frankfort to get a small appropriation to repair the monument and keep it in order. It would be in good taste for the Legislature to make the small appropriation asked for.—Lexington Gazette.

By reference to advertisement elsewhere in to-day's CLIMAX, you will see that Mr. Schneek will have a sale of Jersey cattle, horses, other live stock, farming implements &c. His place lies between the river and Nicholasville, and not far from Madison.

A Big Horse Contribution.

McKee & Traynor, Capt. R. B. Terrill, Col. O. H. Chennault and Mr. W. A. Powell sold horses at Lexington in the Combination Sales last week and the week before, amounting to nearly \$53,000. Susie S. brought \$10,000; Col. Chennault's \$2,880; Capt. Terrill's Hilda Clay \$1,025; Ellah \$1,160, Fitzhugh \$500. See horse column.

Piano Company.

Messrs. J. S. Collins and F. Thornton have formed a piano company, of which the former is President and the latter Secretary. They propose to sell, lease and rent pianos and organs. They will have them made to order. A number of canvassers have already been employed. Principal place of business opposite the Glynndon at 227 Main Street.

Vories Schoolfield & Co.

The new clothing firm has received its goods and is now ready to receive orders. They are at No. 213 West Main Street, next door to Madison National Bank. Their entire stock is new, and they handle furniture goods, hats, shoes and other requisites. They come well recommended, and have come to stay. See their announcement in to-day's CLIMAX.

Platforms.

The R. N. L. & F. touches the Fair grounds at the angle of Four miles Avenue, and will have a platform for use during the fair. It is probable that the R. N. L. & F. will have a platform at the crossing of the R. N. L. & F. about one hundred feet from the Fair grounds, to be used for the same purpose. Possibly the two roads may have a platform and a house for passengers who desire to change from the road to the other.

A Hitch.

Last week, we announced the election of Mr. James M. Benton as Police Judge of Winchester. But Governor Buckner, two weeks ago, has declined to issue the commission. Judge Chester E. Reese claims to have been elected, so there the matter stands.

The town has two sets of officers, all of them by Mayor down, and the courts will have to decide which is which. The elections in Winchester are said to have become fairly corrupt.

A Shooting.

James Douglas, turnkey at the jail, shot at Dan Walker, colored, at the door of the colored Baptist church, this place, Friday night, about 10 o'clock, but missed him and hit Green Hogan, colored. The shot went through his coat and vest, but struck his suspender buckle and glanced off.

Numerous and conflicting reports as to the cause of the shooting are in circulation. Douglas has not been found.

His place as turnkey at the jail has been filled by C. F. Turner.

Woman's Rights.

A Washington special of Thursday says: "Kentucky is taking a conspicuous part in the National American Woman Suffrage Association, proceedings at the annual convention, which is being held at the Statler Hotel, New York City. The State report, Sarah Clay Bennett, daughter of Gen. Cassius Clay, makes a speech upon 'Methods of Legislative Work for Women's Suffrage.' Ellen B. Dietrich and Laura Clay discuss 'Woman Suffrage Among the Young.' Mrs. Laura Ormiston, a celebrated English advocate, has spoken."

Auctioneer's Sale.

W. P. Prewitt, auctioneer, reports sale of W. T. Cotton, on Thursday, the 20th inst., was well attended with a large crowd: Farming implements and stock sold well; 24 shoats average about 110 lbs., brought \$4.50 per head; one sow and 10 pigs \$27; one 4-year-old horse mule, 15½ hands, \$124; two mule colts, 10½; four steer calves, \$12.50 per head; 4 heifer calves, \$9 per head; 2 yearling heifers, \$15 each; 2 milk cows, \$30.50 per head; 2 brood mares, one at \$15 and one for \$165. People seem to have more life in them than usual.

The 22nd at C. U.

The literary society of Central University held a joint contest in presence of a good audience, considering the rain. Mr. Richard White Miller presided and the exercises consisted of Mr. S. Br. ell. The committee consisted of Mr. R. Burnham, Judge Chennault, and Prof. Clarke. They awarded the medal to Mr. Johnson as the best speaker of the evening. Mr. Burnham presented the medal with complimentary remarks, especially relating to Mr. Miller's opening address. Flowers and fruits were abundantly bestowed upon the speakers.

Their Officers.

The officers of the Pineville Iron and Coal Company are, J. S. Ray, President; Theodore Harris, Vice-President; Hector V. Loving, Secretary and Treasurer; John W. Stine, Dennis Long, John B. Carson, Eliza Root, Frank Hull and Henry Barker, Directors. Of the Beattyville Improvement Company, Wm. Cornwall, Jr., is President; John D. Harris, Vice-President; John H. Leathers, Secretary and Treasurer; John W. Stine, Benjamin H. Young, George W. Naugh, C. D. Chennault, D. M. Bright and Jas. B. McCreary, Directors. Some idea of the magnitude of the business of these companies may be gotten from the fact that the Pineville Company has sold over \$250,000 of property within the last thirty days, and the Three Forks Company about \$100,000.

A Pig Tale.

W. H. Bates, living near Speedwell, this county, reports a remarkably large yield of pigs on his farm, from three sows. One has fifteen, another fourteen, and the other thirteen. The latter is an unusually big number for a sow to have, but his effort was not less satisfactory even than that of the boy who reported to his father that he had counted all the pigs in the lot and he kept such a running record of the number of the pigs that he took them by the legs and dragged them out of the bed, one by one, and thinking he had made some mistake, counted them again as he put them back, but there were thirty-nine in them—more and no less.

Trustees and Teachers.

AN ACT to amend section 9, article 8, chapter 153, Common School Law of this Commonwealth. Be it enacted by the General Assembly of the Commonwealth of Kentucky: That section 9, article 8, chapter 153, be amended by striking out the following words, namely: "The trustees shall not permit any person to teach any private or other school in any district school-house, unless the said person shall have obtained a certificate from the County Board of Examiners;" and insert in lieu thereof the following, namely: "No person shall be allowed to teach a private or other school in any district school-house, unless he be a good moral character, and have the consent of not less than two of the trustees of the district in which said school is to be taught."

Travellers and Teachers.

Mr. S. L. Turpin and Miss Amanda Green were married at the home of the bride's father, Mr. Martin Green, in Madison county, on Thursday, February 20, 1899, Rev. Milton Elliott, officiating. Mr. Edward E. Adams and Miss Mary L. Taylor were married at the home of the bride's father, Mr. J. Gideon Taylor, near Union City, in Madison county, on Wednesday, February 18, 1899; Rev. J. F. Williams, officiating. Attendants—Mr. Christopher Chennault, Miss Sallie Noble; E. F. Edwards, Miss Annie Bowman.

At the Baptist church, this city, February 18th, at 3 o'clock p. m., Rev. Green Clay Smith, officiating. Miss Lena Duke Smith, youngest daughter of Rev. Green Clay Smith, was married to John L. Whitehead, of Williamsburg. The church was beautifully decorated with potted cut flowers. Predominating was the jonquil, a flower first to respond to the warm rays of the spring time sun. In the absence of others, and especially of rare species, it is a beauty, and always finds a hearty welcome in the hearts of florists; and on this occasion, shedding its beauty under mellow lights, it was heartily welcomed. Miss Mary Magowan presided at the organ, beautifully rendering a wedding march. Miss Smith is an attractive young lady, and the groom, who was formerly a student in high school at Lexington, is one of the best business men of Williamsburg. Immediately following the ceremony they started for Williamsburg, their future home. Ushers—L. L. Bridgforth, Roy Kearn, Robert Gatewood and J. L. Williams. Best man, R. G. Willard; Mr. Vernon, and maid of honor, Miss Lucie Chennault. It was a beautiful, impressive wedding.—Mt. Sterling Gazette.

RELIGIOUS.

Sixty-five colored people were baptized in Lexington Sunday. A protracted meeting is in progress at the colored Baptist Church, this place, with thirty additions.

The Baptist Church at Ephesus will be closed for the season.

Richard French, of this city, to take charge of it as pastor and Providence Church will probably do the same.—Winchester Democrat.

Mr. Andrew Young, the author of the popular children's hymn, "There is a Happy Land," died at his residence in Edinburgh on Saturday, Mr. Young, who was 82 years of age, was once head master of the Glasgow Academy, and retired from active life fifteen years ago. He was also the author of a volume of poems.—Churcharman.

The number of Anglican Churches and Chapels in and about London is 1,016.

Robert Browning, the English poet, was buried in Westminster Abbey, on 21st ult., with the appropriate services of the church, some of the most distinguished men and women of England being present. Near the spot is the bust of Longfellow, and the monuments of Chaucer, Spenser, Ben Jonson, Milton, Gray and others.—Churcharman.
